**17.36.010 Intent.**

The intent and objective of this classification and its application is to provide for the location of a grouping of uses which are considered compatible uses having common or similar performance standards in that they represent types of enterprises involving the rendering of services, both professional or to the person, or on-premises retail activities. This zone represents the prime commercial designation for small to moderate scale commercial activities and should be developed in a manner which is consistent with and attracts pedestrian oriented activities. This zone encourages leisure shopping and provides amenities conducive to attracting shoppers.

There are several blocks zoned C-1 general commercial in old downtown Burlington located along Fairhaven, Victoria and Washington between Burlington Boulevard and Anacortes Avenue. The goal of the commercial zoning in this area is to attract new businesses and uses, and to upgrade existing businesses and uses that enhance the district as a whole, without having an adverse impact on parking or changing the character of the area. The process for improving the central business district, old downtown, is an on-going process that will continue over many years. See also BMC [17.09.070](#). (Ord. 1396 § 46, 1999; Ord. 1206 § 3, 1992).
